15 th June 2018	<p>Intimation under Regulations 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015</p> <p>Reference:</p> <ul style="list-style-type: none"> - M. C. Mehta Vs. Union of India and Others i.e. Original Application No. 200/2014 - Renewal of water consent - Our letter dated 22nd January 2018 to BSE <p>This is to inform you that the Company had received electronic approval of Water Consent from Uttar Pradesh Pollution Control Board (UPPCB) under section 25/26 of the Water (Prevention and Control of Pollution) Act, 1974 without detailed conditions. Now the Company has received aforesaid Water Consent alongwith detailed general and specific conditions. The said Water Consent is valid from 1st January 2018 to 31st December 2018. We would like to highlight one of the specific conditions which is as follows:</p>

	<p><i>"The unit will incorporate the recommendations of Joint Inspection Team in the study of IIT, Roorkee, validate the technology from Central Pollution Control Board (CPCB) and ensure Zero Liquid Discharge (ZLD) by way of recycling the treated effluent or other methodology recommended by IIT, Roorkee and approved by CPCB by 31st December 2018."</i></p> <p>With respect to above condition, as also explained in our letter to Bombay Stock Exchange dated 22nd January 2018, we have appointed 'IIT, Roorkee' to carry on R & D activity for "investigation of a few alternative remedies to mitigate the high sulphate / high Total Dissolved Solid (TDS) in wastewater of our plant and suggestion for economical viable solution with its capex cost and operating cost. After reports on the same by IIT, Roorkee, options of ZLD could be explored.</p> <p>We also believe that on our industry ZLD can not be achieved and the reasons of the same are as follows:</p> <ul style="list-style-type: none"> - CPCB in one of its guideline has instructed to all pollution control boards and other departments that the ZLD requirement is possible only for the few specified industries and we are not falling into those list of specified industries. CPCB has also concluded that for other highly water consuming/polluting industry ZLD is not techno economically viable and CPCB has only suggested water conservation and minimization procedure. - Insilco Limited is not in the list of 17 categories of highly / seriously polluting industries identified by CPCB - Detailed judgement of Hon'ble NGT dated 13th July 2017 in the matter of M. C. Mehta vs. Union of India (Original Application no. 200/2014) has, inter-alia, categorically instructed pollution authorities that ZLD would not be applied to the industrial units straight away and it shall be on case to case basis particularly with reference to the load of effluent being discharged, quality of effluents, etc. This should have reference to the financial viability as well. <p>The company will take this forward with UPPCB on above grounds and will review it after receipt of final report from IIT, Roorkee.</p> <p>IIT, Roorkee is expecting to submit the final report to Company by the end of October 2018.</p> <p>The above is for your information and record.</p>
