- A) Preparation of financial statements not on a going concern**
The Uttar Pradesh Pollution Control Board ("UPPCB") had, in October 2019 denied the Company's application for renewal of Consent to Operate its plant at Gajraula, Uttar Pradesh under the Water (Prevention and Control of Pollution) Act, 1974 and the Air (Prevention and Control of Pollution) Act, 1974 ("Consent to Operate") inter alia on the following ground:
"The unit is using fresh water for dilution of effluent to achieve the norms of Sodium Absorption Ratio (SAR) 26. The study carried out by /IT Roorkee has not recommended any feasible method for treatment of the effluent to achieve the prescribed norms. The process of dilution with fresh water cannot be allowed. Keeping the facts in view the Consent to operate water/air application is hereby rejected. Unit may submit final report of IIT, Roorkee to Central Pollution Control Board, (CPCB) and seek suitable direction."
The Company thus suspended the operations of its plant located at Gajraula in October 2019. The Company filed fresh applications on November 21, 2019, for Consent to Operate, however, the same were dismissed by the UPPCB vide order dated February 4, 2020. The Company challenged the aforesaid order by separate appeals under Section 28 of the Water (Prevention & Control of Pollution) Act, 1974 and Section 31 of the Air (Prevention & Control of Pollution) Act, 1981 respectively before the Special Secretary, Department of Environment, Forest and Climate, Uttar Pradesh against the orders of UPPCB. However, the Special Secretary vide its order dated December 4, 2020, dismissed the appeals filed by the Company. C) Adjustments to carrying values and classification of assets and liabilities

- (i) The Company's management has assessed carrying value of assets and liabilities and based on current estimates, following adjustments have been made in the books of account:
- a) Impairment loss to the carrying values of Property, Plant and Equipment's (PPE) and Intangible assets aggregating to INR 1,424 Lakhs has been recognized in the books of account based on valuation report of an external independent valuer during the year ended March 31, 2021. The valuation is considered to be level 3 in the fair value hierarchy due to unobservable inputs used in the valuation. Valuation of PPE has been carried out on the basis of following key assumptions:
- (i) Since the Zero Liquid Discharge (ZLD) is a mandatory requirement for setting up a new plant, the plant can no longer operate for manufacturing of silica. In view of the same the liquidation values of the assets have been considered by the independent valuer while making the estimate of recoverable amount. The basis for liquidation value approach considers the amount that would be realized when an asset or groups of assets are sold on a piecemeal basis that is without consideration of benefits (or detriments) associated with a going-concern business. A forced sale basis transaction with a shortened marketing period is considered for this valuation where the tangible assets are sold quickly, often for an extremely low percentage of their original cost.
- (ii) For buildings, the method is based on estimation of the cost spent in reproducing the present day structure and thereafter applying liquidation discount in line with market norms and it is assumed that steel structure will fetch more value than the Reinforced Cement Concrete (RCC) on a piecemeal basis.
- (iii) For Plant and Machinery and Other Assets, market approach of valuation has been adopted for estimating the reinstatement value/GCRC (gross current replacement cost). Combination of replacement method and comparison method is used for carrying out the valuation. Liquidation value analysis is carried out in line with market experience and expertise. These assets were categorised between specialised for silica plant and general items. The assets specific to the silica plant are considered at scrap value as per the independent valuers' report, whereas for general items the balance useful life and type of asset has been considered for estimation of liquidation value by the independent valuer.
- b) Right of use assets (ROU) relating to leasehold land have been carried at cost as no loss is expected based on valuation report of an external independent valuer and LOI to the successful bidder. Sales comparison method under market approach of valuation has been adopted by the valuer for estimating the fair value of land. In an active or open market, the identical type of land parcel with similar characteristics are used for valuation. In case of unavailability of direct comparable, relevant adjustments are carried out on available quotes or transaction details with consideration of different factors affecting values of land for estimating the fair value. In order to determine the value of land parcel actual sales instances in the area have been considered. The rate for the subject property has been arrived by adjusting the factor for elapsed lease, size of the property and applying liquidation discount in line with market norms. Liquidation value analysis is carried out in line with market experience and expertise. The valuation is considered to be level 3 in the fair value hierarchy due to unobservable inputs used in the valuation. (Also refer note 3 (B)).

c) Write down adjustment to the carrying values of Stores and spares aggregating to INR 130 Lakhs has been recognized in the books of account during the year ended March 31, 2021 based on valuation report of an external independent valuer. Valuation of stores and spares has been carried out on the basis of following key assumptions:

- For spares of general plant and machinery scrap value is considered as per the expert valuation report. For spares related to specialised plant and machinery NIL value has been considered.

d) Other assets have been recognised at current realizable value as per the Management's current estimate and loss allowance has been recognised during the period as mentioned below:

Pollution Control Board (UPPCB) vide its order dated October 22, 2019. The Company's appeals before the Special Secretary, Department of Environment, UP have been dismissed by the Special Secretary vide orders dated December 4, 2020. As stated in the said note, the Board of Directors recommended voluntary liquidation of the Company and accordingly, use of the going concern basis of accounting in the preparation of the financial statements is considered inappropriate as there are no realistic alternatives for resumption of the Company's operations and accordingly, the financial results for the quarter and Nine Months ended December 31, 2023 have not been prepared on a going concern basis. Further, as stated in Note 3 (b), with effect from June 25, 2021 the Company is under Voluntary Liquidation Process subsequent to consent of the Board on May 31, 2021 and approval of the shareholders and creditors of the Company to voluntarily liquidate the Company and appointment of a Liquidator in accordance with Section 59 of the Insolvency & Bankruptcy Code, 2016 ("Code"). Further, as described in notes 3 (c) to the Statement, future course of action, during the voluntary liquidation process, being adopted for realisation of the Company's assets and settlement of its liabilities might affect the classification and consequential adjustments to the carrying values of assets and liabilities of the Company, the impact of which on the financial results in the Statement cannot be ascertained at this stage.

5. Based on our review conducted as above, except for the indeterminate effects of the matters stated in paragraph 4 above, nothing has come to our attention that causes us to believe that the Statement has not been prepared in all material respects in accordance with the applicable Accounting Standards prescribed under Section 133 of the Companies Act, 2013 and other recognised accounting practices and policies, and has not disclosed the information required to be disclosed in terms of Regulation 33 of the Listing Regulations, 2015 including the manner in which it is to be disclosed, or that it contains any material misstatement.
